PATENTED TECHNOLOGY & PATENT PENDING

Slidefix®

NEW: Horizontal sliding screen

RENSON® is a trendsetter in sun protection and closely follows new architectural trends. "Invisible architecture" is one such trend and nicely complements the desire for minimalism. Renson's Slidefix also anticipates on the shift to "Invisible architecture". This new development with a horizontally opening screen is the ideal, wind-proof solution for large openings, sliding windows and corner solutions.

- The sun protection slides open horizontally and follows the sideways motion of the sliding window. This logical movement results in a much greater ease of use.
- The horizontal movement also enhances the flexibility in terms of the room's use and need for sun protection.
- Its durable design guarantees easy maintenance, perfect water drainage and an invisible integration into the building envelope.
- It can be perfectly combined with other RENSON® screens.

Product

- The box and upper/lower channel can be invisibly hidden away.
 - The box can be integrated into the cavity wall in which the fabric roll and motor can be easily assembled/disassembled.
 - The upper channel can be integrated into the cavity wall.
 - The bottom channel can be installed fully aligned with the inside or outside floor finish.
 - The upper/lower channel can be hidden away inside the box.
- The bottom channel is easily disassembled, allowing for easy maintenance (removing leaves, dust, etc.)
- Profiles can have an anodised finish or are available in any RAL colour.
- Fabric choice: Polyester fabric which is available in various colours.
- Electronically controlled: multiple control options with Connect & Go.

Applications

- New construction
- Large fixed or opening windows
- Corner "glass-on-glass", fixed or opening

Technical specifications

- Box dimensions (W x D): 150 x 110 mm
- Maximum width: 4000 mm
- Maximum height: 3000 mm
- Side channel dimensions (H x D) 100 x 110 mm

Guarantee

- 10 year guarantee on the paintwork of the aluminium profiles
- 5 year guarantee under normal use conditions and regular maintenance
- In accordance with the European EN 13561 standard: wind class 3
